APPENDIX A: REQUIRED STUDIES AND SUPPLEMENTARY MATERIALS

Unless otherwise noted, all section numbers refer to the District of Manitoulin Official Plan (OP), which can be found on the Manitoulin Planning Board website at <http://manitoulinplanning.ca/index.php/downloads>

- **The original application with original signatures and 3 copies on Legal sized paper (8.5" X 14")**
- If the application is for the redesignation of a parcel of land, a sketch showing the land subject to amendment, including a key map showing its general location with a map showing the area to be redesignated.
- Copies of the **Deed(s)/Transfer(s)** to the subject land(s) being amended
- The required **Application Fee**. (Please check our Tariff of Fees on our website)
- If you are proposing a change in a policy in the Official Plan, **the text of the requested amendment**.
- If you are replacing a Schedule to the Official Plan, **include the Schedule and any text that accompanies it**.
- If the development proposal would produce 4500 litres or more of effluent per day on private water/wastewater systems, a **Servicing Options Statement** and a **Hydrogeological Report**. If the proposal would produce less than 4500 litres of effluent on private water/wastewater systems, a **Hydrogeological Report** is required. The Ontario Building Code section 8.2.1.3 regarding sewage system design flows states the required daily rates for various uses. (information can be found here: <http://www.buildingcode.online/1156.html>)
- If the development proposal would be serviced by private communal or individual wells, **provincial guidelines on quality and quantity of water must be satisfied** as required by OP Section E.2.3
- If the development would be serviced by municipally owned water and/or sewage disposal systems, confirmation from the municipality that there is sufficient servicing capacity to handle the new development as per OP Section E.2.
- If the development is in an area of Archaeological Potential, a **Stage 1 and 2 Archaeological Assessment** would be required as per Section B.5.2.4.
- If the development may impact at designated heritage property, a **Heritage Impact Assessment** may be required as per OP Section B.5.2.6.
- If the land or nearby/adjacent properties has or proposes an industrial use, the classification of the industrial use must be determined. If sensitive uses fall within the distances specified under the Ministry of Environment, Conservation, and Parks, D-Series guidelines, then a **Noise and Dust Study** would be required.
- If the land has Endangered Species habitat, or has the potential to have Endangered Species Habitat, then an **Ecological Site Assessment (EcoSA)** would be required as per OP Section D.4.3. The result of this EcoSA may trigger an **Environmental Impact Study**.
- If the land is within 120 metres of a Provincially Significant Wetland, and **Environmental Impact Study** would be required as per Section D.4.1.
- If the land contains or is within a wetland, a **Wetland Evaluation** may be required as per OP Section D.4.2.
- If the subject land is adjacent to Fish Habitat or likely Fish Habitat, a scoped **Environmental Impact Study** concerning the fish habitat would be required as per OP Section D.4.4.
- If the development proposes a new or expanded Shoreline Area designation, a **market analysis or needs study** should be provided demonstrating the need for the expansion, as per OP Section B.2.3.3.a
- If development will take place within escarpment lands within 60 metres of the base or brow of the escarpment, a **slope stability analysis and/or a development plan** prepared by a qualified engineer satisfying the requirements of OP Section D.5.
- If the development will take place in an area of Extreme or High Wildland Fire Risk, a plan for the mitigation of the risk of wildfires in the development must be prepared according to the **Wildland Fire Risk Assessment and Mitigation Reference Manual** as per OP Section D.9.3.
